I gotta tell ya, this was probably the strangest place i have seen. It was a good time. I really didn't get all the scared but I still liked it a lot.

Considering this one was free to see, it's a fantastic attraction to see for a wide range of ages. This neighborhood put on a great display with some impressive and creative animated props! I saw a lot of families there, and everyone seemed to be enjoying it so I'd recommend it for just about any age. They also had security standing by, so this was a very organized event. Have fun!!!

This is a difficult attraction to rate, because it is a free group of Halloween displays put out by the neighbors on Forest in N. Riverside. The displays were incredibly creative and many of them were animated and motion activated. considering this is a free attraction, I'd recommend this to everyone!

Wow! Our family just visited this neighborhood haunt for the first time and loved what we saw. We spoke to a couple people there and they said if you like it now, wait till it's done! I can't believe there's going to be more. The kids loved it all. I loved the Volcano and Pirates Cove. The wife liked the graveyard and movie screen. This place has something for everyone. I can't believe this was all free. We will be visiting a few more times this year. What a scene. Way to go Freak Frights.
